

Labels that Last

Durable 520 White VOID Polyester

Description: This tamper-evident polyester has a ultra-smooth topcoat for fine resolution printing. When Attempting to remove this label, its patterned, aggressive adhesive leave behind a distinct and highly visible "VOID" message.

Common uses include asset tracking and warranty tracking in the automotive, electronics and pharmaceutical markets.

Recommended Printing Ribbons: EIM T84, T68

	Face Stock	Adhesive	Liner
Type	Polyester	Permanent VOID Acrylic*	Kraft Paper
Color	White	-	-
Caliper	2.0 mil (50 micron) +/- 10%	0.10 mil (25 micron) +/- 10%	3.2 mil (80 micron) +/- 10%

Min. Application Temp.	-	45°F (7°C)	-
Service Temp. Range	-	-20°F to 212°F (-28°C to 100°C)*	-
Exterior Life	Two Years*		

* **NOTES:** Please allow 24-48 hours for your labels to setup before testing for tamper evidence. The tamper evident features of this product will become permanently non-functional if it is exposed to temperatures above 104°F (40°C). Additionally, if this material is used outside, the white coating may turn yellow with extended exposure to sunlight.

	Temperature	Humidity	Shelf Life
Recommended Storage Conditions	70°F (21°C)	50% R.H.	Two Years

NOTE: Due to the variety of application conditions, Electronic Imaging Materials strongly encourages the end-user to do thorough testing of all label products under consideration to make sure they will meet the application requirements.
